

**New Hampshire Child Care Advisory Council  
Public Engagement Committee  
Opinion Survey:  
One Name=One Voice**

*The Public Engagement Committee of the NH CCAC has been charged with "getting the word out" to our supporters, constituents, and the general public about the goals of the current five-year plan. The Council is "charged with supporting the development of quality, affordable child care statewide...advises the Commissioner of DHHS on issues and needs regarding child care services and communicates with the Governor and the Commissioner of the Department of Education on issues related to child care". Goal II of this plan is to "Increase Public Awareness for the Value of Quality Child Care Services", including "Create a shared identity among professionals in the child care industry with representation from the complete continuum of child care services, professional disciplines, employers and families". We need your input to help "create a shared identity".*
